Summary

Fullstack engineer with 4 years of experience owning features end to end in React and Node.js, with strong frontend depth.

Experience

Fullstack Engineer, Karya Teknologi (2020-present)

- Owned the customer-facing analytics dashboard: React + TypeScript, Node.js API, and a suite of automated tests written alongside every feature.
- Built data-visualization views and tuned query performance for large datasets.
- Worked from Figma prototypes and matched them exactly before shipping.
- Strong written and verbal communicator, ran client demos directly.

Skills

React, TypeScript, Node.js, data visualization, automated testing, Figma, communication.
