Summary

Fullstack engineer with 4 years in React and Node.js, owning features from prototype to production, with strong testing discipline and dashboard/data-viz experience.

Experience

Fullstack Engineer, Cahaya Teknologi (2020-present)

- Owned a data-visualization dashboard end to end: React, Node.js API, automated test suite.
- Matched every build to the Figma prototype exactly, treating mismatches as bugs.
- Strong communicator, ran story kickoffs with the Product Designer and Technical Lead.

Skills

React, Node.js, data visualization, automated testing, Figma, communication.
