Skill Portfolio

Assessed Skills

React

Level: L4 (AI: L2 -> Override: L4) | Confidence: High

Synthetic assessment fixture for demonstration. This is not a real candidate evaluation.

Evidence:

• Synthetic quote: I reproduced a rendering issue, isolated its cause, and checked the fix.

Assessor Note:

Synthetic demo: assessor reviewed the interview evidence and adjusted the rating.

Testing and debugging

Level: L3 | Confidence: Low

Synthetic assessment fixture for demonstration. This is not a real candidate evaluation.

Evidence:

• Synthetic quote: I reproduced a rendering issue, isolated its cause, and checked the fix.

Technical communication

Level: L3 | Confidence: High

Synthetic assessment fixture for demonstration. This is not a real candidate evaluation.

Evidence:

• Synthetic quote: I reproduced a rendering issue, isolated its cause, and checked the fix.

Fit/Gap Analysis: Frontend Engineer - synthetic demo

Missing assessment is not a skill gap. Assessor overrides take precedence over AI ratings.
React: assessor override applied.
Culture and competency require separate review of behavioral evidence. This is not an automated hiring recommendation.

Skill	Required	Candidate	Result	Delta
React	L3	L4	Exceeds	+1
Testing and debugging	L3	L3	Match	0
Technical communication	L2	L3	Exceeds	+1
System design	L3	Not assessed	Not Assessed	N/A

Overall Assessment

1 match, 2 above requirement, 0 below requirement, 1 not assessed. Missing assessment is not a skill gap. Review interview evidence before making a hiring decision.
