Skill Portfolio

Assessed Skills

Database Design & SQL

Level: L3 | Confidence: High

Demonstrates the stated level in this synthetic fixture. Not a real candidate assessment.

Evidence:

• Synthetic example: I verified the failure path before releasing the change.

RESTful API Design

Level: L3 (AI at review: L2; human review: L3) | Confidence: Medium

Demonstrates the stated level in this synthetic fixture. Not a real candidate assessment.

Evidence:

• Synthetic example: I verified the failure path before releasing the change.

Assessor Note:

Synthetic human review: evidence supports L3, with room for improvement.

Testing & Quality Assurance

Level: L4 | Confidence: High

Demonstrates the stated level in this synthetic fixture. Not a real candidate assessment.

Evidence:

• Synthetic example: I verified the failure path before releasing the change.

Fit/Gap Analysis — Backend Engineer | synthetic demo

Skill	Required	Candidate	Result	Delta
Database Design & SQL	L3	L3 (AI)	Match	0
RESTful API Design	L4	L3 (human; AI L2)	Gap	-1
Testing & Quality Assurance	L2	L4 (AI)	Exceeds	+2
Communication	L3	No rating	Not Assessed	—

Missing evidence is not a skill deficit. Skill levels do not establish culture fit or an automatic hiring decision.

Overall Assessment

1 match, 1 exceed, 1 gap, and 1 not assessed. Missing evidence is not a skill deficit. Review supporting evidence and follow up before making a hiring decision.
