Summary

Fullstack engineer, 5 years, React and Node.js, owns modules end to end with a strong testing and design-to-code practice.

Experience

Senior Fullstack Engineer, Solusi Prima (2019-present)

- Owned the reporting dashboard end to end: React, Node.js, automated tests, performance tuning.
- Ran client-facing demos and story kickoffs, strong written and verbal communicator.
- Used AI/design-to-code tooling as a first pass, then verified against the Figma prototype.

Skills

React, Node.js, data visualization, automated testing, Figma, client communication.
